NEW YORK--(BUSINESS WIRE)--Mar. 2, 2026-- ProCap Financial, Inc. (Nasdaq: BRR), the first publicly traded agentic finance firm, today announced the Company acquired 450 Bitcoin. The Company now holds 5,457 Bitcoin and reduced its average cost basis per Bitcoin.

In the last 10 days, ProCap Financial has repurchased 782,408 shares of its common stock at a significant discount to Net Asset Value ("NAV"). In that time frame, the NAV discount has narrowed, reflecting the program's early success. The Company intends to continue repurchasing shares for as long as BRR trades at a significant discount to NAV.

The Company has 82,640,367 total basic shares outstanding.

"We are doing two things at the same time: buying Bitcoin to average down our total cost basis and buying back our own stock when the market misprices it," said **Anthony Pompliano, Chairman and CEO of ProCap Financial**. "Both actions are accretive to our shareholders. Our disciplined approach to our balance sheet has put us in a position to play offense now that Bitcoin has significantly fallen from the all-time high."
